PROFILE

Frontend Developer with **2+ years** of experience building scalable and responsive web applications using Vue.js and React. Specialized in developing dashboards, admin panels, and user-focused platforms with strong attention to performance, clean architecture, and maintainability.

PROFESSIONAL EXPERIENCE

Web Pioneer, *Frontend developer*

09/2024 – 03/2026 | Nasr-city ,Cairo

I have worked on multiple web projects, delivering responsive and scalable web applications, including:

- Developed **Joma Cake website and its admin panel** using **Vue.js and Vuex**, implementing efficient state management and dynamic interfaces.
- Built **Bobinn website and its admin panel** using **Vue.js and Vuex**, focusing on performance, maintainability, and user experience.
- Created the **Neftron admin panel** using **Vue.js and Vuex**, enabling seamless data control and dashboard functionality.
- Developed the **new Web Pioneer website** using **pure JavaScript**, ensuring lightweight performance and clean, custom functionality.
- Designed and customized the **Al-Bokor website** using **WordPress**, adapting themes and features to business requirements.

Point Blank Communications, *Frontend developer*

10/2023 – 07/2024 | New Cairo1,Cairo

I have worked on multiple web projects, delivering modern, scalable, and user-focused solutions, including:

- Developed and maintained a **company website** using **ReactJS**, ensuring high performance and clean architecture.
- Built a **courses platform** using **Nuxt.js and Vuex**, implementing state management and dynamic content handling.
- Created **administrative dashboards** with **Nuxt.js**, focusing on data visualization and usability.
- Designed and customized the **Maad Tourism website** using **WordPress**, tailoring themes and functionality to meet business needs.
